

Let me begin by thanking you, our supporters, for your financial help so far this year. There are so many good things taking place through this ministry that we would love to share with you.

### BIBLETALK PLATFORM

Our ministry began as a website featuring only my teaching and preaching. We're still broadening our content and moving BibleTalk.tv into a platform that features additional presenters who are sound Bible teachers and preachers.

### BAPTISMS

During this report period we have noted that 13 people wrote to tell us that they were baptized mainly due to the teaching they received from BibleTalk.tv (two others contacted us about being restored).

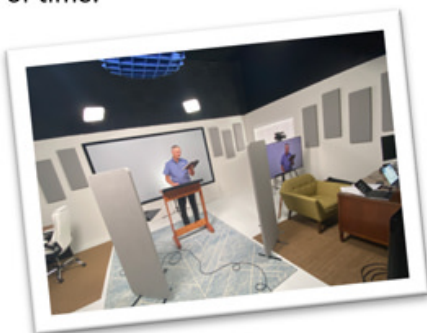

The three young men in the photo were baptized by one of our viewers (Doug) who received instructions about the gospel and how to properly respond to it. We connected with these new converts and helped direct them to a local congregation of the church for further ministry.

### CONNECTING

The Depew Church of Christ is a small congregation with no preacher that uses BibleTalk.tv as their teacher for class and preacher for services. Several members, the Youth Group and myself drove there and conducted a service in order to encourage these brethren to remain faithful despite their numbers. God judges a church based on its faith, not its size.

### NEW STUDIO

Here's a look at our newly renovated studio. The main feature of this layout is that everything for sound and filming is already pre-set so that we can be "record ready" in only a few minutes. This makes it easier for us to record various speakers and topics in a short amount of time.
